DENVER, CO - December 3, 2010 - Physician Health Partners (PHP) announced today that its Board of Managers has named Ken Nielsen as its new President and CEO. Ken came to Physician Health Partners in 2004 and most recently served as Vice President of Finance and Informatics. Ken also served as Interim CEO after the departure of Jay Want, MD this past September.

Ken has been integral to Physician Health Partners' success since his arrival, and has brought his keen sense of organizational development and growth in helping the company develop over the last six years. The company's Board of Managers, nearly all of whom are physicians, have expressed their strong support for Ken and his leadership team in continuing their vision for physician-driven improvement in the quality and efficiency of the healthcare system.

"The Board of Managers is very happy to emerge from this recent period of transition and is thrilled to have Ken at the helm of the company", said Steve Krebs, MD, Chairman of the Board.

Ken's elevation to the role of President and CEO is effective immediately.

About PHP

Founded in 1996, Physician Health Partners (PHP) is a management services organization that believes physicians and other providers have the capability and responsibility to drive high quality, cost-effective healthcare for patients.

Our innovative services create solutions for the healthcare market by delivering performance tools and expertise to improve healthcare quality, reduce overall system costs, and increase the physician's success. Our current customers include physician groups serving adult and pediatric patients, and government entities directly funding healthcare services for certain populations.
